

Estimation of Controlled Burn Coverage

NATL UP Blocks A&B

Date of burn 9 April 2014

Burn master Tom Workman

Date of coverage estimate 16 April 2014

Estimator Tom Walker

Estimated coverage A=95, B=90

Methods:

- Estimate coverage in each whole or partial quarter gridblock to the nearest 10% unless too close to call (then use nearest 5%).
- Calculations are made with a [spreadsheet](#)
